- (b) Provide a brief summary of the corporate governance policy that the board of directors has adopted. Please emphasize the policy/ies relative to the treatment of all shareholders, respect for the rights of minority shareholders and of other stakeholders, disclosure duties, and board responsibilities.

The Corporation has adopted its own Revised Corporate Governance Manual ("CG Manual"), which is aimed to institutionalize the principles of good corporate governance in the entire organization. As a policy, the Board of

Directors ("Board"), Management, employees and shareholders of the Corporation believe that good corporate governance is a necessary component of what constitutes sound strategic business management and undertakes to create and maintain awareness within the organization.

Shareholders - The CG Manual ensures that shareholders are afforded rights and that minority shareholders' interests are protected.

Minority shareholders - the CG Manual emphasizes that the minority shareholders should be allowed to participate in determination of corporate acts. Specifically, the Board should give minority stockholders the right to propose the holding of meetings and the items for discussion in the agenda that relate directly to the business of the Corporation. The By-Laws of the Corporation provides that shareholders representing at last ten percent (10%) of the outstanding capital stock of the Corporation may request the holding of a special shareholding's meeting.

Disclosure duties - Under the CG Manual, the Corporation has adopted a policy that requires management to disclose related-party transactions. Also, item 5 of the CG Manual requires the disclosure of all material information about the Corporation which could adversely affect its viability or the interests of the stockholders. This includes:

- earnings results
- acquisition or disposition of assets
- remuneration

Board Responsibilities - It is the general responsibility of the Board to foster the long-term success of the Corporation and secure its sustained competitiveness in a manner consistent with its fiduciary responsibility, which it shall exercise in the best interest of the Corporation and its shareholders. The Board shall conduct itself with utmost honesty and integrity in the discharge of its duties, functions and responsibilities.

(c) How often does the Board review and approve the vision and mission?

The Corporation has no fixed period set for the Board's review of the vision and mission.

2) Chairman and CEO

(a) Do different persons assume the role of Chairman of the Board of Directors and CEO? If No, describe the checks and balances laid down to ensure that the Board gets the benefits of independent views.

Yes No

Generally, the Board is the governing body of the Corporation, and all corporate acts are approved by the Board. There are adequate checks and balances in the corporate governance structure of the Corporation to ensure that there is an appropriate balance of power, increased accountability and better capacity for independent decision-making by the Board (e.g. board review, internal control, and Audit Committee).

Firstly, there is a proper delineation of the functions of Chair and CEO provided by the Corporation's By-Laws:

- Article V, Section 6 - defines the position of Chairman of the Board
- Article V, Section 7 - defines the position of President/ CEO

Secondly, the CG Manual contains provisions to ensure that the Board has mechanisms to ensure proper checks and balances in the management and operation of the Corporation. These include:

- Sections 2.2.1.3 (vi) to (ix) and Section 2.2.1.4 (iv) - on the powers, duties and responsibilities of the Board and a director
- Section 2.2.2.1 - on the creation and functions of the Audit Committee
- Section 2.5 - which requires the Board to provide stockholders with a balanced and comprehensible assessment of the Corporation's performance, position and prospects on a quarterly basis, including interim and other reports that could adversely affect its business, as well as reports to regulators that are required by law.
- Section 2.6 - requires the Management to provide adequate and timely information to the Board, acknowledges the Board's access to Management and the Corporate Secretary, and the Board's discretion to make further inquiries on Management action and not to rely solely in information provided by Management
- Section 7.4 - Board's self-rating system to assess Board and Management performance

Under Sec. 2.2.1 of the CG Manual of the Corporation, the Board is primarily responsible for the governance of the Corporation. Corollary to setting the policies for the accomplishment of the corporate objectives, it shall provide an independent check on Management.

Thirdly, the Corporation has an Audit Committee and its own Audit Committee Charter ("Charter"), which provides for the

duties and responsibilities of the Audit Committee and lays down the rules and procedures that govern the conduct and performance of the duties of the Audit Committee. The powers, duties, and responsibilities of the Audit Committee include access to auditors and management, review of audit procedures, and oversight of financial management functions.

Identify the Chair and CEO:

Chairman of the Board	Wong Hong Ren
CEO/ President	Wong Hong Ren

(b) Roles, Accountabilities and Deliverables

Define and clarify the roles, accountabilities and deliverables of the Chairman and CEO.

	Chairman	Chief Executive Officer
Roles	According to the Corporation's By- Laws, the Chairman, if present, presides at all meetings of the stockholders and of the Board. The Chairman also performs all other duties as from time to time may be assigned to him by the Board.	The President Acts as the Chief Executive Officer of the Corporation. He presides over meetings in the absence of the Chairman. He also performs all duties incident to the office of the President and such other duties as may from time to time be assigned to him by the Board or as prescribed by the By-Laws.
Accountabilities		He is responsible for the general care and supervision of the business and affairs of the Corporation. Corporate acts and contracts outside of day-to-day operations generally require Board approval.
Deliverables		He signs with the Corporate Secretary or Assistant Corporate Secretary certificates of stock of the Corporation. He also provides the stockholders and the Board such reports, memoranda, accounts and data which may be required of him. He also signs off on the periodic filings and reports of the Corporation (e.g., Annual Report, Information Statement, Financial Statements, etc.) submitted to regulatory agencies and the PSE.

Explain how the board of directors plan for the succession of the CEO/Managing Director/President and the top key management positions?

The CEO/President and other key officers of the Corporation under its By-Laws, are elected every year in the organizational meeting of the Board. Except for the CEO/President of the Corporation (who is not covered by an employment contract with the Corporation), the key officers of the Corporation are also on two-year employment contracts that may be renewed for another two years upon mutual of the parties.

Furthermore, under Article VI, Section 2 of the Corporation's By-Laws, the Chairman, President, Vice-President(s), the General Manager, the Secretary, and Treasurer shall hold office until his successor is elected and qualified in his stead, or until he shall have resigned or shall have been removed in the manner as provided in the By-Laws.

3) Other Executive, Non-Executive and Independent Directors

Does the company have a policy of ensuring diversity of experience and background of directors in the board? Please explain.

According to Section 2.2.1.3 of the CG Manual, it is a policy of the Corporation that the Board has a duty to implement a process for the selection of Directors who can add value and contribute independent judgment for the formulation of sound corporate strategies and policies.

Furthermore, 2 out of the 7 directors, or approximately 28.6%, are required to be independent directors as defined by the CG Manual.

Does it ensure at least one non-executive director has an experience in the sector or industry the company belongs to? Please explain.

Yes. According to the CG Manual, Sec. 2.2.1.5, in addition to the qualifications required by law for all directors, the Corporation also requires that the non-executive director be a member in good standing in a relevant industry, business, or professional organizations. More particularly, Section 2.2.1.1. of the CG Manual mandates that the non-executive director should possess such qualifications and stature that would enable them to effectively participate in the deliberations of the Board.

The CG Manual also provides that a director should devote sufficient time to familiarize himself with the Corporation's business. He should be constantly aware of and knowledgeable with the Corporation's operations to enable him to meaningfully contribute to the Board's work. He should attend and actively participate in Board and committee meetings, review meeting materials and, if called for, ask questions or seek explanation. A director should have a working knowledge of the statutory and regulatory requirements that affect the Corporation, including its articles of incorporation and by-laws, the rules and regulations of the SEC and, where applicable, the requirements of relevant regulatory agencies. A director should also keep abreast with industry developments and business trends in order to promote the Corporation's competitiveness.

Define and clarify the roles, accountabilities and deliverables of the Executive , Non-Executive and Independent Directors:

The Corporation's corporate governance documents do not expressly provide for the roles, accountabilities, and deliverables of the executive, non executive, and independent directors. However, the By-Laws and CG Manual of the Corporation provide for the powers, duties, and responsibilities of the Board and of each director of the Corporation.

It refers to a person who, apart from his fees and shareholdings, is independent of management and free from any business or other relationship that could, or could reasonably be perceived to, materially interfere with his exercise of independent judgment in carrying out his responsibilities as a director of the corporation. It includes, among others, any person who:

- (i) Is not a director or officer or substantial stockholder of the Corporation or of its related companies or any of its substantial shareholders (other than as an independent director of any of the foregoing);
- (ii) Is not a relative of any director, officer, or substantial shareholder of the Corporation, any of its related companies, or any of its substantial shareholders. for this purpose, relatives includes spouse, parent, child, brother, sister, and the spouse of such child, brother or sister.
- (iii) Is not acting as a nominee or representative of a substantial shareholder of the Corporation, any of its related companies or by any of its substantial shareholders within the last five years.

In compliance with this definition, only the candidates whose nominations are confirmed by the Nomination Committee to be in accordance with such rules, guidelines and criteria to govern the conduct of the nomination shall be eligible to be elected as independent directors.

As such, both Atty. Gentugaya and Atty. Imperio, the incumbent independent directors, have no relation whatsoever to their nominators, TPFL and Zatrio Pte Ltd, respectively.

Does the company have a term limit of five consecutive years for independent directors? If after two years, the company wishes to bring back an independent director who had served for five years, does it limit the term for no more than four additional years? Please explain.

2) Risk Policy

(a) Corporation

Give a general description of the company's risk management policy setting out and assessing the risk/s covered by the system (ranked according to policy), along with the objective behind the policy for each kind of risk:

Risk Exposure	Risk Management Policy	Objective
Credit Risk	Credit risk represents the risk of loss the Corporation would incur if credit customers and counterparties fail to perform their contractual obligations. The Corporation's credit risk arises principally from the Corporation's trade receivables.	The investment of the Corporation's cash resources is managed so as to minimize risk while seeking to enhance yield.
Liquidity Risk	Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation manages liquidity risk by forecasting projected cash flows and maintaining a balance between	Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements.

	continuity of funding and flexibility.	
Market Risk	Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other market prices will affect the Corporation's income or the value of its holdings of financial instruments. The Corporation is subject to various market risks, including risks from changes in room rates, interest rates and currency exchange rates.	The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(b) Group

Give a general description of the Group's risk management policy, setting out and assessing the risk/s covered by the system (ranked according to priority), along with the objective behind the policy for each kind of risk:

Risk Exposure	Risk Management Policy	Objective
Events that adversely impact domestic or international travel	Sustained levels of occupancy and room rates can be adversely affected by events that reduce domestic or international travel. Such events may include acts of terrorism, war or perceived increased risk of armed conflict, epidemics, natural disasters, increased cost of travel and industrial action. These events may be localized to a particular country, region or could have a wider international perspective, especially where a large airport, for example, is a major hub for worldwide travel. Reduced demand will impact on revenues and operational profitability. The Group has in place contingency and recovery plans to enable it to respond to major incidents or crises.	Contingency and recovery plans are put in place to enable the Group to respond to major incidents or crises.
Political and economic developments	Major events affecting either economic or political stability on a global and regional level represent an exposure to the Group. Economic events could include recessionary pressures which would have an impact on the Group's revenues, operating costs and profitability. Political risks include changes in the regulatory environment in which the Group's business activities operate, including restrictions on the repatriation of funds or control over the ownership of assets. Many of these risks are beyond the control of the Group and the time-frames for developing appropriate risk management approaches can often be very short. Management is continually vigilant to political and economic developments and seeks to identify emerging risks at the earliest opportunity. The Group implements ownership structures, internal controls and takes such steps available to it to minimize these exposures to the greatest extent possible.	Management is continually vigilant to political and economic developments and seeks to identify emerging risks at the earliest opportunity. The Group implements ownership structures, internal controls and takes such steps available to it to minimize these exposures to the greatest extent possible.
The hotel industry supply and demand cycle	The hotel industry operates in an inherently cyclical market place. A weakening of demand, or an increase in market room supply, may lead to downward pressure on room rates which in turn would lead to a negative effect on operating performance. The Group has management systems in place designed to create flexibility in the operating cost base so as to optimize	Management systems put in place are designed to create flexibility in the operating cost base so as to optimize operating profits in volatile trading conditions, such as the profit protection plans initiated during previous market down-turns.

	operating profits in volatile trading conditions, such as the profit protection plans initiated during previous market down-turns.	
Human resources	Execution of the Group's strategy depends on its ability to attract, develop and retain employees with the appropriate skills, experience and aptitude. The Group has a strong service culture supported by recognition systems, compensation and benefits arrangements, training and development programmes. The Group has appropriate systems for recruitment, reward and compensation and performance management. Labor relations are actively managed on a regional and local basis.	The Group has appropriate systems for recruitment, reward and compensation and performance management. Labor relations are actively managed on a regional and local basis.
Management agreements	An element of the Group's strategy is to selectively increase the number of management contracts to operate hotels owned by third-parties, primarily focusing on the Middle East region. In this regard, the Group faces competition from established global and regional brands. Successful execution of this strategy will depend on the Group's ability to identify suitable management opportunities, secure contracts on suitable contractual terms and ensure that contractual commitments are met and retained going forward.	The Group has developed a management team in the Middle East region that has the necessary skills and resources to pursue this element of the Group's strategy. A structured process for acquiring new contracts has been implemented and a priority is to ensure that the critical roles are filled and operational management is integrated into the Group system.
Joint ventures and subsidiaries with minority shareholders	The Group has entered into a number of joint ventures in certain markets and is therefore subject to the risk of non-performance on the part of the minority partners especially when the strategic objectives of the partners are not fully aligned. For these joint ventures, the Group has appointed representatives who are assigned responsibilities to manage the relationship with the joint venture partners in order to enhance the alignment of business objectives.	Manage the relationship with the joint venture partners in order to enhance the alignment of business objectives.
Treasury risk	The Group trades in numerous international currencies but reports its financial results in sterling. Fluctuations in currency exchange rates may either be accretive or dilutive to the Group's reported trading results and the Group's net asset value. Unhedged interest rate exposures pose a risk to the Group when interest rates rise, resulting in increased costs of funding and an impact on overall financial performance. Credit risk arises from the risk of financial loss if a financial counterparty fails to meet its contractual obligations in respect of its	Manage foreign currency transactions exposure, interest rate risk, and credit risk.

	deposits or short-term investments. Foreign currency transactions exposure is primarily managed through funding of purchases from operating income streams arising in the same currency. Interest rate hedges are used to manage interest rate risk to the extent that the perceived cost is considered to outweigh the benefit from the flexibility of variable rate borrowings. The Group actively monitors the need and timing of such hedges. Investments in short-term instruments are with counterparties approved by the Board taking into account the counterparty's credit rating and a maximum limit as to the amount that may be deposited.	
Tax risk	The Group's businesses operate in numerous tax jurisdictions. Changes in tax laws in any of those jurisdictions may have adverse consequences on the Group's profits. Similarly the Group's interpretation and application of various tax laws may be challenged. Tax authorities in many jurisdictions are increasing their focus on corporate tax affairs in order to maximize tax receipts. The Group seeks to minimize tax risk by ensuring that appropriate accounting systems, processes and internal controls are in place to ensure that taxes are calculated accurately and paid on a timely basis, in compliance with tax legislation. A co-operative approach is undertaken in respect of provision of information to tax authorities during tax audits and investigations, and external tax advisors are engaged in each tax jurisdiction where necessary to advise on such matters, and to give guidance on the implementation of any changes in tax legislation. Full review of tax implications is carried out prior to undertaking any transactions involving new activities or structural changes, and external tax planning advice is obtained where appropriate. The Board and Audit Committee receive regular updates on tax management issues.	Minimize tax risk.
Compliance and litigation	The Group operates in many jurisdictions and is exposed to the risk of non-compliance with increasingly complex statutory and regulatory requirements. In addition the Group may be at risk of litigation from various parties with which it interacts, either through direct contractual arrangements or from the provision of services. In certain countries where the Group operates, particularly in emerging markets, local practices and the legal environment may be such that it	Monitor changes in the regulatory environment in which it operates, identify its compliance obligations and implement appropriate compliance programmes and has processes in place to manage the risks associated with its various contractual relationships.

These include comprehensive policies for ethics and business conduct, anti-corruption and bribery, gifts and hospitality and charitable donations. There is training for relevant staff.	
Safety, health and environment	As a significant property owner and operator of hotels in multiple jurisdictions, the Group is exposed to a wide range of regulatory requirements and obligations concerning the health and safety of employees, visitors and guests. Failure to implement and maintain sufficient controls regarding health and safety issues could expose the Group to significant sanctions, both civil and criminal, financial penalties and reputational damage. The Group has established and maintains health and safety and environmental management systems that are aligned with the requirements of ISO 14001 and OHSAS 18001. By working to British standards, the Group is committed to working to the highest standards of health and safety and to an internationally accredited system. Intellectual property rights and brands	Future development will, in part, be dependent on the recognition of the Group's brands and perception of the values inherent in those brands. Consistent delivery of product quality is vitally important to influencing consumer preference and creating and maintaining value perception. Historically the Group has mainly operated properties which it owns. The trend towards managing third-party properties, primarily in the Middle East region increases the risk that product quality may not be delivered in accordance with the Group's standards. This may increase the Group's exposure to litigation, increase risks to reputation, reduce revenues and become an inhibiting factor on ongoing development. Substantial investment continues to be made in protecting the Group's brands from misuse and infringement, by way of trade mark registration and domain name protection. Management seeks to ensure	Protect the Group's brands from misuse and infringement, by way of trade mark registration and domain name protection and ensure maintenance of standards by developing strong working relationships with hotel owners and undertaking regular monitoring of service delivery.

	maintenance of standards by developing strong working relationships with hotel owners and undertaking regular monitoring of service delivery.	
Property ownership	The Group's strategy is to be both owner and manager of hotel properties. Growth of the Group's portfolio of owned assets is dependent on the availability of suitable development sites, acquisitions and access to funding. A limit on such opportunities may have a negative impact on future operational profitability. Property ownership requires ongoing investment in the form of preventative maintenance, refurbishment, significant capital expenditure and product development. There is also the possible loss of capital due to uninsured events and reductions in asset values as a result of demographic changes in the markets in which the properties are located.	The Group continues to develop property specific asset management plans which focus on the capital requirements of each property in terms of regular maintenance and product enhancement. The Group has rigorous management systems to monitor major capital projects to ensure they are properly managed and delivered on time and within budgeted parameters.
Insurance	Not all risks are insured, either because the cover is not available in the market or that cover is not available on commercially viable terms. The Group is exposed to the risk of cover not being continually available. Availability may be influenced by factors outside the Group's control, which could reduce the market's underwriting capacity, breadth of policy coverage or simply make the cost of cover too expensive. The Group could be exposed to uninsured third-party claims, loss of revenue or reduction of fixed asset values which may, in turn, have an adverse effect on Group profitability, cash flows and ability to satisfy banking covenants. The Group's insurance requirements are regularly reviewed to ensure that the cover obtained is appropriate to its risk profile and after taking into account the level of retained risk the Board considers to be appropriate, relative to the cost of cover available in the market place. Insurance covers are arranged with a variety of insurers to ensure that arrangements are not overly concentrated on a limited number of carriers. Choice of insurance carriers is dependent on satisfaction of a number of relevant factors including a review of the insurers' security ratings. Data privacy	A significant proportion of the Group's operating revenue is received from customers through credit card transactions and the Group has an obligation to keep secure customers' credit card and other personal details. Non-compliance with data privacy regulations, which differ by jurisdiction, could result in fines and/or other damages being incurred. Additionally, the payment card industry requires the Group to comply with data security standards (PCI-DSS) as a condition in credit card merchant agreements. Failure to comply with these standards could result in contractual penalties and withdrawal of credit card payment facilities.	During the last year the Group has committed significant resources to achievement and maintenance of the necessary IT infrastructure, operating controls and training associated with data privacy and PCI-DSS.

(c) Minority Shareholders

Market Risk	<i>(1) Room Rates</i> The risk from room rate changes relates to the Corporation's ability to recover higher operating costs through price increases to customers, which may be limited due to the competitive pricing environment that exists in the Philippine hotel industry and the willingness of customers to avail of hotel rooms at higher prices. <i>(2) Interest Rate Risk</i> The Corporation has no interest-bearing debt obligations to third parties. As such, the Corporation has minimal interest rate risk. <i>(3) Foreign Currency Risk</i> Financial assets and financing facilities extended to the Corporation were mainly denominated in Philippine peso and have minimal transactions in foreign currency. As such, the Corporation's foreign currency risk is minimal.	<i>(1) Room Rates</i> The Corporation minimizes its exposure to risks in changes in room rates by signing contracts with short period of expiry so this gives the Corporation the flexibility to adjust its room rates in accordance to market conditions.
